BOARD OF REVENUE—*cont.*

From the Assistant Secretary—. Submits explanations respecting the points referred to the Board, relative to the estate of the late Ramaswamy Iyer. The sum claimed from Government according to a letter from Mr. Carruthers was at that period Capital pagodas 16,984-37-0 and interest 8 per cent from the 4th December 1801 pagodas 17,663-11-0 making a total of pagodas 34,648-3-0. The amount of the estate of Ramaswamy was estimated by the Collector at pagodas 16,984-37-1. From this sum payments to the amount of pagodas 3,188-33-11, have been made by the authority of Government, according to the estimated value of the estate, the balance remaining in the hands of the Collector ought to be pagodas 13,796-3-70. The actual balance however was reported to be only pagodas 11,281-35-71. It was afterwards stated to be pagodas 11,978-24-28. The difference between these two statements probably arose from different rates being assumed in reducing to star pagodas the local coins of which the estimated consisted. The exact dates at which the assets of the estate were realized do not appear on the records of the Board of Revenue The Board cannot believe that the claim which has been preferred could be successfully supported in a Court of Justice—reason—Recommend that the suit be resisted even if it were certain that the Government would be cast with costs—Reason—Consider the demand for interest the material point at issue.
